Auction No. 22 will use simultaneous multiple round competitive bidding. Bidding will be permitted only from remote locations, either electronically (by computer) or telephonically. Specific information relating to this auction will be announced by public notice. General information and associated licensing parameters are listed below.

### **Number of licenses being offered:**

The Federal Communications Commission ("FCC" or "Commission") will hold an auction for **134** 15 MHz and **208** 30 MHz C block licenses, **three** 10 MHz D, **six** 10 MHz E, and **five** 10 MHz F block licenses. The list licenses available for auction is included at the end of TAB A.

### **ELIGIBILITY:**

#### **A. General Requirements**

All applicants must certify on their FCC Form 175 applications under penalty of perjury that they are legally, technically, financially and otherwise qualified to hold a license and that they are not in default on any payment for Commission licenses (including down payments) or delinquent on any non-tax debt owed to any Federal agency. In order to be eligible to bid for a C block license, an applicant must also attach to its FCC Form 175 application a statement made under penalty of perjury indicating whether or not the applicant has ever been in default on any Commission licenses or has ever been delinquent on any non-tax debt owed to any federal agency. Prospective bidders are reminded that submission of a false certification to the Commission is a serious matter that may result in severe penalties, including monetary forfeitures, license revocations, exclusion from participation in future auctions, and/or criminal prosecution.

#### **B. Eligibility to Participate as an Entrepreneur (C and F Blocks)**

##### **(1) General Rule**

Only entrepreneurs may be licensed in the C and F blocks. Section 24.709 of the Commission's rules defines an entrepreneur for purposes of C and F block auctions without actually using the term 'entrepreneur':

No application is acceptable for filing and no license shall be granted for frequency block C or frequency block F, unless the applicant, together with its affiliates and persons or entities that hold interests in the applicant and their affiliates, have gross revenues of less than \$125 million in each of the last two years and total assets of less than \$500 million at the time the applicant's short-form application (Form 175) is filed.<sup>1</sup>

<sup>1</sup> 47 C.F.R. § 24.709(a)(1); *see also id.* § 24.709(a)(2).

## (2) Limited Exception for C Block

Applicants that participated in either of the prior C block auctions, Auction No. 5 and Auction No. 10, will not be required for Auction No. 22 to meet the revenue and asset requirements of Section 24.709 of the Commission's rules.<sup>2</sup>

### C. Attribution Rules

The attribution rules set forth in Section 24.709 of the Commission's rules will apply to Auction No. 22.<sup>3</sup>

### D. Special C Block Eligibility Provisions Regarding Defaulters

The Commission decided in the *C Block Fourth Report and Order* to limit participation in future C block auctions to applicants that are not in default on any Commission licenses and are not delinquent on any non-tax debt owed to any Federal agency.<sup>4</sup> Accordingly, to be able to bid on C block licenses, an applicant must certify on its FCC Form 175 application that it is not in default on any Commission licenses and that it is not delinquent on any non-tax debt owed to any Federal agency.<sup>5</sup> In addition, to be able to bid on C block licenses, an applicant must attach to its FCC Form 175 application a statement made under penalty of perjury indicating whether or not the applicant has ever been in default on any Commission licenses or has ever been delinquent on any non-tax debt owed to any federal agency.<sup>6</sup> **C block applicants must include this statement at Exhibit F of the FCC Form 175.**

"Former defaulters," i.e., applicants that have defaulted or been delinquent in the past, but that have since paid all of their outstanding non-tax debts and all associated charges or penalties, are eligible to bid on C block licenses, provided that they are otherwise qualified.<sup>7</sup> However, former defaulters will be required to pay upfront payments of an additional fifty percent as set forth in TAB A under the heading, "Former Defaulters' Upfront Payment."

### E. Special C Block Eligibility Restriction Regarding Surrendered C Block Licenses

C block licensees that surrendered C block licenses pursuant to the disaggregation, prepayment, and/or amnesty/prepayment election options the Commission made available in the *C Block Second Report and Order and Further Notice*,<sup>8</sup> as modified by the *C Block Reconsideration Order*,<sup>9</sup> are ineligible to reacquire the spectrum represented by their surrendered licenses through participation in Auction No. 22, or by any other means, for a period of two years from the start date of Auction No. 22. This prohibition

extends to qualifying members of the licensee's control group, and their affiliates.<sup>10</sup> Licensees that surrendered licenses pursuant to the "pure amnesty" election option remain eligible to reacquire the spectrum represented by those surrendered licenses in Auction No. 22 or through a secondary market transaction.<sup>11</sup>

## **F. General Eligibility Criteria Regarding Small and Very Small Businesses**

The Commission has adopted special small business provisions for the C and F blocks to promote and facilitate the participation of small businesses in auctions of C and F block licenses and in the provision of broadband PCS.

### **(1) Determination of Revenues**

For purposes of determining which entities qualify as very small businesses or small businesses, the Commission will consider the gross revenues of the applicant, its affiliates, persons or entities holding interests in the applicant and their affiliates on a cumulative basis and aggregated subject to the exceptions set forth in Section 24.709(b) of the Commission's rules. Therefore, the gross revenues of all of the above entities must be disclosed *separately and in the aggregate* as Exhibit C to an applicant's FCC Form 175.

### **(2) Very Small or Small Business Consortia**

A consortium of small businesses or very small businesses is a conglomerate organization formed as a joint venture between or among mutually independent business firms, each of which *individually* satisfies the definition of very small or small business in Section 24.720(b)(1) or (2). Thus, each consortium member must disclose its gross revenues along with those of its affiliates and persons or entities holding interests in the consortium member and their affiliates. We note that although the gross revenues of the consortium members will not be aggregated for purposes of determining eligibility for very small or small business credits, this information must be provided to ensure that each individual consortium member qualifies for any bidding credit awarded to the consortium.

### **(3) Application Showing**

Applicants should note that they will be required to file supporting documentation as Exhibit C to their FCC Form 175 short form applications to establish that they meet the gross revenue and total asset limitations of Section 24.709 of the Commission's rules<sup>12</sup> and that they satisfy the eligibility requirements to qualify as a very small or small business (or a consortium of very small or small businesses) for this auction.<sup>13</sup> Specifically, for Auction No. 22, applicants applying to bid for C and/or F block licenses as a very small or small business (or a consortium of very small or small businesses) will

be required to file as Exhibit C to their FCC Form 175 short form applications, all information required under Sections 1.2105(a), 1.2112(b), and 24.709. In addition, these applicants must disclose, *separately and in the aggregate*, the gross revenues for the preceding three years of each of the following: (1) the applicant; (2) the applicant's affiliates; (3) the applicant's attributable interests; and (4) the affiliates of the applicant's attributable interests. **Certification that the average gross revenues for the preceding three years do not exceed the applicable limit is not sufficient. A statement of the total gross revenues for the preceding three years is also insufficient.** The applicant must provide separately for itself, its affiliates, and its attributable interests, a schedule of gross revenues for *each* of the preceding three years, as well as a statement of total average gross revenues for the three-year period. **If the applicant is applying as a consortium of very small or small businesses, this information must be provided for each consortium member.**

### G. Bidding Credits

Qualifying applicants in Auction No. 22 are eligible for a bidding credit on C and F block licenses that represents the amount by which a bidder's winning bids are discounted. The size of the bidding credit depends on the average gross revenues for the preceding three years of the bidder, as set provided in Section 24.709:

- A bidder with average gross revenues not exceeding \$40 million for the preceding three years receives a 15 percent discount on its winning bids for C and F block licenses; and,
- A bidder with average gross revenues not exceeding \$15 million for the preceding three years receives a 25 percent discount on its winning bids for C and F block licenses.<sup>14</sup>

Bidding credits are not cumulative: qualifying applicants receive either the 15 percent or the 25 percent bidding credit, but not both. The definitions of very small business and small business (or a consortium of very small or small businesses) (including calculation of average gross revenues) are set forth in 47 C.F.R. § 24.720(b).

Bidders for C or F block licenses should note that transfer and assignment restrictions and unjust enrichment provisions apply to winning bidders that use bidding credits and subsequently assign or transfer control of their licenses to an entity not qualifying for the same levels of bidding credits.<sup>15</sup> **Finally, bidders should also note that there are no installment payment plans in Auction No. 22.**

Zoslov, Chief (Acting), Wireless Telecommunications Bureau, Federal Communications Commission (December 2, 1998) (approving the Commission's small business and very small business definitions for use in the upcoming C, D, E, and F block auction(s)).

# SUMMARY OF PCS SPECTRUM FOR AUCTION

The table immediately following this page lists the Basic Trading Area ("BTAs") for which the Commission will issue Broadband Personal Communication Services ("PCS") licenses in Auction No. 22. Auction 22 offers **134** 15 MHz C block licenses and **208** 30 MHz, **three** 10 MHz D, **six** 10 MHz E, and **five** 10 MHz F block licenses for a total of **356** licenses.

For each license, the table lists the market number, market name, license number, block, spectrum amount, most recent net high bid from previous auction, its license status, bidding units, upfront payment, upfront payment for former defaulters, and minimum opening bid.

- A complete license number for each C block license is: "PB" plus the BTA designation plus the letter or letter/number designation for the license. In this example BTA 001 will be used as the market area:

| License Type                   | License Number |
|--------------------------------|----------------|
| 30 MHz C block                 | PBB001C        |
| 15 MHz C block (designated C1) | PBB001C1       |
| 15 MHz C block (designated C2) | PBB001C2       |

- A complete license number for the D, E, and F block licenses are: "CW" plus the BTA designation plus the block letter designation. In this example, BTA001 will be used as the market area:

| License Type | License Number |
|--------------|----------------|
| D block      | CWB001D        |
| E block      | CWB001E        |
| F block      | CWB001F        |

- All population figures are from the 1990 United States Census, United States Department of Commerce, Bureau of the Census.

Following the "Summary of PCS Spectrum for Auction" is a table called "List of Basic Trading Areas with Component Counties Cross-Referenced to Major Trading Areas ("MTAs")" that provides MTA and county data for each BTA license.

| 2. The previous licensee of this spectrum block, DCR PCS, Inc. (a wholly owned subsidiary of Pocket Communications, Inc.), precipitated the cancellation of its license pursuant to a binding, unconditional election under Commission Rules and Orders. While DCR PCS, Inc., is currently in bankruptcy, on November 13, 1998, the judge in that case denied a request to continue a preliminary injunction preventing the Commission from "alienating" the DCR PCS, Inc., Licenses through November 16, 1998. Order Denying Further Continuation of Preliminary Injunction, In re Pocket Communications, Inc., and In re DCR PCS Inc., jointly administered under Case No. 97-5-4105-SD, and Pacific Eagle Investments, Ltd., et al. v. FCC and U.S.A., Adversary Proceeding No. 98-6223 (ESD) (Bankr. N.D. Md., entered Nov. 11, 1998). Thus, this license is now available for auction. |             |             |       |                |             |  |          |               |                    |  |                           |
